

## **Medical Needs**

In order for staff to manage the medical needs of all children attending Bush Primary School, it is essential that we have the necessary information.

Attached you will find two forms-

### **FORM 1 - Healthcare Plan**

If your child has a specific medical need e.g. asthma, diabetes etc. we require you to complete this form and return to school, submit through the Homework form on the school app.

### **FORM 2 - Request for school to administer medication** Temporarily suspended due to COVID 19

If at any time during the school year your child requires medication to be administered, it is necessary that you, the parent, complete Form 2 and submit your request through the school app.

**Please note** :- School **will not** give your child medicine unless you complete and sign this form. Only 'prescribed' medication will be administered.

**Please note** :- School does not permit medicine to be carried by pupils.

Please keep these forms for future reference should you need them at any time during the school year.

Yours sincerely

P McAlister  
Principal
